

Mission

To profitably develop and manufacture high performance specialty coatings and coated substrates for technical applications in imaging, label, medical, automotive, and other industrial and consumer areas while maintaining close communication with our customers (existing or potential), industry leaders, and our colleagues, partners, and suppliers.

We provide innovative solutions to technical challenges across the globe by leveraging our industry leading experience and expertise.

We value lasting relationships with both customers and suppliers that are based on shared opportunities, mutual respect, and trust.

We will create a work environment that allows individual contributions to shine by having a comprehensive quality management system enabling project success.

We work collaboratively, as a team and a family, together with a common purpose.

We build close relationships through shared success, professional conduct, and confidentiality in everything we do.

We operate in a profitable, professional, and ethical manner so as to provide security and prosperity for our employees and their families as well as the communities that we operate in.

When needed, we partner with industry leaders to allow us to offer our customers total solutions.

At ITC, we say know how, know who.
